RE: WORLD TRADE CENTER - PHASE II - FINISH LINE

Dear Wayne,

Congratulations from the Team at Turner Construction Company for a job well done! As of Wednesday, February 17, 1999, we received the Temporary Certificate of Occupancy and were able to meet our schedule on time. As a Subcontractor to the World Trade Center Phase II Project you have gone above and beyond normal circumstances and completed the job on time and with an outstanding performance.

Many obstacles and hurdles had to be overcome throughout this project. Between Mother Nature and her onslaught of unending wind and rain and an overly optimistic and progressive schedule we have accomplished an extremely difficult task on time and with quality work. Doing shell and core work in conjunction with TI work is in and of itself unheard of in the construction industry and we have accomplished completion in record time and with complete owner satisfaction. The standard has definitely been raised in the Pacific Northwest in this regard.

Thank you again for your "team spirit" and unequalled dedication to the completion of this Project. We look forward to the next one in the near future.

Sincerely,

Dan Kalin - Project Manager

Joe Lucarelli - Project Superintendent

Bob Millard - Project Engineer
